

Exampro's Mark Entry and Reporting Technology (MERiT) is designed to work with existing AQA papers to give you comprehensive feedback about your students' performance in the mock exams so you can help them to maximise their progress and reach their full potential.

- Compare your students' marks with the population
- Gain in-depth analysis of individual and whole class performance
- Share with students, colleagues and parents
- Identify your students' strengths and weaknesses
- Target interventions effectively

	Sept	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
Year 11 window 1				WINTER MOCK June 2018 Paper 1								
Year 11 window 2						SPRING MOCK June 2018 Paper 2						
Year 10 window										Year 10 Test		

MERiT timeline

Our timeline will help you to decide when to use each test. The more students that take the tests in the same window, the more valid and reliable the comparisons become. In the 2017/18 academic year, more than 400,000 students' marks were entered for Science, giving unprecedented insights into attainment.

Population comparison

Data will be generated when sufficient marks have been entered and schools will be notified as soon as this is released. Please note there are no grade boundaries or predictions.

Further guidance

Schools may use the AQA papers in any way they choose but should be aware of the impact on the validity and reliability of MERiT reporting if it is used outside of the timeline.

Papers can be downloaded from the e-AQA website or AQA public website.

- Early mark entry
- Best time for taking paper(s) and entering marks
- Mark entry still open; reports may be less valid
- Mark entry closed; student data can be updated
- MERiT closed for maintenance
